DETAILED OFFICE ACTION

In view of applicants response filed on 29 April 2004, the finality of the rejection of the last Office action is withdrawn. A new ground of rejection is set forth below.

Currently, claims 66-82 are pending and under consideration.

Rejections Over Prior Art:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

Claims 66-82 are rejected under 35 U.S.C. 102(e) as being anticipated by Ebner et al., US 2003/0092133, a division of the published application US 2003/0003545 (abandoned), which was used for the rejection of the same claims under 35 U.S.C. 102(e), made in the previous Office Action, paper No. 16, mailed on 24 February 2003, at page 3.

Therefore, the instant rejection is made for the same reasons set forth in the previous Office Action, paper No. 16 as US 2003/0092133 has the same disclosure as that of US 2003/0003545.

Conclusion:

No claim is allowed.
